

## NATIONAL COALITION FOR CANCER SURVIVORSHIP

National Coalition for Cancer Survivorship's (NCCS) mission is to advocate for quality cancer care for all people affected by cancer. Founded by and for cancer survivors, NCCS created the widely accepted definition of survivorship and defines someone as a cancer survivor from the time of diagnosis and for the balance of life. NCCS has worked with legislators and policymakers to represent cancer patients and survivors to improve their quality of care and life after diagnosis. Our vision is to be an advocacy organization that reflects the needs of all cancer survivors to effect policy change at the national level. NCCS represents the millions of Americans who share a common experience – the survivorship experience – living with, through, and beyond a cancer diagnosis. <https://canceradvocacy.org>

Imerman Angels's mission is to provide comfort and understanding for all cancer fighters, survivors, previvors and caregivers through a personalized, peer-to-peer mentorship program with someone who has been there. For people facing the shock, fear and uncertainties of cancer, Imerman Angels provides a nurturing space to ask questions, laugh, cry and share. Our services are free to anyone seeking support, connection and community. <https://imermanangels.org/>

# Male Breast Cancer Global Alliance

The **Male Breast Cancer Global Alliance** brings men with breast cancer together with researchers, clinicians and oncologists around the world for the purpose of advancing research, clinical trials and treatments for men diagnosed with breast cancer. Our mission is to advocate for all men diagnosed with breast cancer to ensure they receive equal access to support and treatment; to serve as a source of support and resources for the men, their caregivers, and their families; to ensure that men are appropriately represented in research and clinical trials, and to recruit volunteer “ambassadors” to increase awareness of breast cancer in men on a global scale.

The Dear Jack Foundation is dedicated to improving the quality of life for adolescents and young adults (AYA) with cancer, supporting them and their families from diagnosis through

survivorship. We strive to be a national leader in AYA cancer programming, fostering a community emphasizing mental and physical wellness. Our programs offer retreats, community support, and wish-granting opportunities, all designed to provide the resources and connections needed for patients, survivors, and their caregivers to heal, grow, and thrive together. We believe in the power of shared experiences and the strength of a supportive community. <https://www.dearjackfoundation.org>
